"WOE TO HIM THAT BUILDETH A TOWN WITH BLOOD, AND STABLETH A CITY BY INIQUITY."

THE PARDONS.

On January 30, 1900, Gov. William Goebel was foully assassinated in the city of Frankfort—the culmination of the blackest plot ever hatched in the brain of murderers. On last Saturday, June 13, 1908, Gov. Augustus E. Wilson issued pardons to Caleb Powers and James Howard who were charged with complicity in the crime.

Gov. Wilson says he has spent many days and burnt much midnight oil in reading the records of these cases and that he is convinced of the innocence of Powers and Howard. In his lengthy opinion Mr. Wilson fails to direct the attention of the reader to proof of the innocence of these two men, but merely extemporizes. He doesn't attempt to tell why Powers endeavored to escape under disguise from the city of Frankfort; he also fails to explain why Powers demanded a pardon from Taylor for a crime he "never committed."

A DANGEROUS MAN.

Prominent members of Mr. Taft's own party accuse him of dealing unfairly, and in a high-handed and outrageous manner, in the delegate-contest cases recently tried out in Chicago. The Louisville Herald denounces the tactics employed by Taft managers as contemptible and mean politics, and Senator Bradley has frequently damned everybody connected with the contest board. The Louisville Herald and other Republican newspapers, and Senator Bradley and other leaders, have grounds for kicking. Mr. Taft is selfish; he appropriated everything in the way of delegate votes to his own use. To say the least, his methods were questionable, and unbecoming to a man seeking the Presidency of the United States. The bold robberies practiced would make a ward-heeler blush with shame. In view of the stupendous steal, the natural question which arises is: Should a man who boldly practices robbery in the manner practiced by Taft and his followers, be nominated by a great political party for President? If elected, to the Presidency would he not employ such methods in dealing with the people? Because of his selfish disposition, as President of the United States would Taft not be dangerous? To advance his personal interests would he not sacrifice the interests of the people? A man who is dishonest in one instance will be dishonest in another instance.

TIME PACIFIETH.

Gov. Wilson acted wisely in taking a long time to decide the Powers and Howard pardon cases. That lengthy record gave him an opportunity to kill time, and in this manner he prepared the minds of the people for the pardon. On the night of November 5, last, when the news of Wilson's election was announced, it was conceded by all that Powers and Howard would be pardoned, but it would have been folly for the Governor to have hastily proceeded in the matter. While Mr. Wilson was "reading" the record the people were persuading themselves to become reconciled, hence the Governor will not be quite as severely criticized now as he would have been had he pardoned these men immediately upon taking his seat as Governor.

Gov. Wilson says that Youtsey is alone responsible for the assassination of Gov. Goebel. Had Mr. Augustus E. Wilson given this as his opinion eight years ago he would have been read out of the Republican party by the Louisville Herald and Evening Post.

YOUTSEY, SCAPEGOAT.

Gov. Wilson says he believes that Youtsey was the originator of the plans, the promoter of the plot and the individual who carried out the dastardly assassination of Gov. Goebel. Gov. Wilson would try to persuade the people of Kentucky to believe that there was no plot to murder Goebel, that his assassination was the work of a crank. The Governor's design is very comprehensible—indeed, it is as plain as the noon-day sun. He would clear the Republican party of the crime, and excuse himself for pardoning Powers and Howard by proclaiming that Youtsey alone is the guilty one. But that great volume of evidence, which the Governor claims he read, re-read, studied and poured over during the days and nights of the past several weeks, refutes the Governor's assertion.

Mr. Wilson would ask intelligent people to believe that Youtsey brought the mountain army to Frankfort—armed to the teeth; he would ask us to admit that Youtsey ordered out the soldiers who chased the Legislature through the streets of Frankfort and adjourned the Court of Appeals; he would have us believe that Youtsey commanded Adjutant General Dan R. Collier to quarter troops in the State Arsenal at Frankfort weeks before the assassination and that Collier obeyed Youtsey's orders; he would have us believe that immediately following the crack of the rifle that Youtsey had these troops to surround the State House; he would have us believe that Youtsey persuaded Powers to try to escape to the Kentucky mountains under disguise; that Youtsey commanded Taylor to offer \$2,500 for the life of Goebel. But the Governor does not offer one scintilla of proof to support his claims, therefore, there are thousands of people in Kentucky who will continue to believe that Powers, Howard, Taylor, Finley, etc., etc., are as guilty as hell.

UPON WHAT GROUNDS, SIR?

The friends of Caleb Powers have all along contended that he was convicted upon perjured testimony, thus admitting that such testimony was sufficient, by strong to convict. In the face of facts the contention was absurd. The "perjured testimony" was a part of the record that Gov. Wilson claims to have thoroughly, thoughtfully and studiously read. Now, the question which naturally presents itself is: Did the Governor pardon Powers because he believed the evidence was too weak to merit a conviction, or did he pardon Powers because he believed the testimony was perjured? If he believes the witnesses who testified against Caleb Powers were "bought and paid for" he should endeavor to his utmost to have every party to the transaction pay the penalty of the law. If he believes the proof was insufficient his belief does not coincide with that of Powers' attorneys and his friends, for they assert that the witnesses for the Commonwealth were bought.

LEXINGTON.

Lexington is a good, old town, surrounded by many acres of "God's country," and is inhabited with as hospitable a people as the sun shines upon. In the matter of selecting a convention city we favored Louisville, but we are now glad Lexington captured the meeting. It was such a big, happy, harmonious gathering—such a genuine love-feast and delightful fellowshiping of the "unterrified and undaunted" hosts, that we are tempted to congratulate the Hon. Sam T. Spalding upon casting his vote for that city, and to say to him: "We ain't got a thing agin you."

Mr. Richard Knott, of the Evening Post, objects to harmony in the Democratic party.

A CUE FROM THE POST.

Through flaming headlines, printed in his paper, the Louisville Evening Post, Mr. Richard Knott, has put a few of our good Republican friends in this county to talking. They are proclaiming that the Democratic convention at Lexington was captured, body, breeches and soul, by the whisky people. Upon being asked from what source they received their information, they reply: "From the Evening Post!" The answer itself is sufficient to give the lie to the assertion. The Post stands at the head of the list of monumental liars; it has so persistently practiced the art of lying that it is the next thing to impossible for it to tell the truth, even when the truth would be to its own advantage. To those Republicans in Washington county who have pinned their faith to this sheet, we call attention to the following editorial from the Louisville Herald, the official organ of the Republican party of Kentucky:

"THE POLITICAL BUZZARD REPUTATED."
"All desolate and forlorn, we venture to say that never in the political history of this state has a man stood more thoroughly discredited than stands Richard W. Knott today."

"With the unscrupulous daring of a professional buccaner, he assiduously plotted for many moons the downfall of both the Republican and Democratic parties of Kentucky, that he himself might rebuild with his own timbers, then select from his architectural achievements the one which suited him best, or perchance pilfer both of their spoils."

"The action of John Whallen in divorcing himself from this miserable marplot, followed closely by the renunciation of Knott and his methods at Lexington, leave him only the Chairman of the Board of Public Safety and a handful of imbecile members of the city administration, whose boots he may for a time be permitted to lick."
"AGAIN WE FEEL IT OUR DUTY TO CALL UPON REPUBLICANS AND CAUTION THEM THAT AS OBJECTION WITH THIS CREATURE CAN BRING NOTHING BUT HARM. At the beginning of the last campaign he was at the back door whining for a bone, but instead of booting him from the premises with the cry of 'mad dog' he was taken into the front parlor, furnished with a velvet cushion to lie upon, and already much of his hydrophobia has been disseminated."
"HIS ADVOCACY OF MR. TAFT WILL COST THAT CANDIDATE MANY THOUSAND OF VOTES. Surely by this time the Republican party should know that the very breath of this unscrupulous charlatan is poisonous."

It is not the intention of The Sun to advise the Republican party about anything, but we have a few personal friends in that party—men whom we hold in high esteem—whom we desire to caution about quoting from this sheet. It forces intelligent people to conclude that you are easily duped when you quote a statement from the Post, and pretend to believe the statement is true.

THE CONVENTION.

The Democratic convention held in Lexington last week was a love feast. All factions of the party were united, and the enthusiasm of the delegates was genuine. Not for many years have Democrats been so thoroughly determined to present a solid front to the enemy, and it is predicted on all sides that Bryan's majority in Kentucky next fall will not be less than 25,000.

Hon. Sam T. Spalding, of Lebanon, was re-elected a member of the State Executive Committee from the Fourth district. There are few Democrats in Kentucky more active than Mr. Spalding, and none more enthusiastic. He never falters in his battle for Democracy, and his re-election as a member of this important committee means that the duties of that office will be well performed.

"The Tattler" (Miss Elvira Snyder Miller) is contributing an interesting column to The Jeffersonian, Curtis Alcock's paper, published in Jefferson-town, Ky. Miss Miller is among the brightest writers of the South, formerly being connected with the Louisville Times. We congratulate the Jeffersonian; it would be hard to find a more entertaining contributor.

MR. KNOTT DISAPPOINTED.

The Louisville Evening Post hysterically proclaims that the Democratic convention was captured by the whisky interests and by the night riders. It is now in order for the lesser lights of the Republican press to follow suit and shout Mr. Knott's "proclamation" from the housetops. Watch 'em fall over each other in their efforts to follow where Darling Dicky leads. Indeed, it was a bitter disappointment for the Evening Post when it was announced from Lexington that harmony prevailed in the convention. Mr. Knott wanted a fight to occur; he wanted to see the breach in the party reach the proportions of a chasm, so wide that it would be impossible to bridge it over before the election next November. It made no difference to the editor of the Post which faction of the party captured the convention, just so the successful faction—without ceremony or apology—kicked the unsuccessful faction down and out. But Mr. Knott's program failed—completely and gloriously. Consequently, there was nothing left for the Post to do but to yell, "Night rider! whisky! McNutt! Lillard! sinners and damnation!"

The little Republican weeklies will now take up the same, insane wail; Republican speakers will belabor it from the stump and the henchmen will repeat it upon the street corners, but watch Kentucky give Bryan 25,000 majority in refutation of the charge.

It was a clean, harmonious convention—a body composed of the best citizenship of the State, working together for the good of Kentucky and for the good of the nation.

WORK OF THE CONVENTION.

From a harmony standpoint the Lexington convention was the greatest ever held in Kentucky. A happier or more enthusiastic crowd never assembled in the State. All factions of the party were united, and are now standing together fighting for the success of Democracy. The delegates demanded that the party leaders get together, in order to insure Kentucky's electoral vote to Bryan, and on Wednesday night at about 11:30 an agreement was reached between Beckham's and Stanley's following. Mr. Beckham withdrawing from the race for temporary chairman.

The convention was called to order promptly at 2:30 Thursday afternoon by Chairman McQuown. The name of Mr. Stanley for temporary Chairman was placed before the convention by Congressman Olie James, and he was elected by acclamation. Mr. Stanley's speech of acceptance was strong and was enthusiastically received by the convention.

The following delegates to Denver were unanimously elected and instructed to cast Kentucky's vote for Bryan: JAMES B. MCCREARY, of Richmond. THOS. H. PAYNTER, of Frankfort. J. C. W. BECKHAM, of Bardstown. W. B. HALDEMAN, of Louisville. OLLIE M. JAMES, of Marion. JOHN C. C. MAYO, of Paintsville.

The Fourth District delegates met in the court house in Lexington at 11 o'clock, a. m. Thursday morning. The meeting was called to order by Chairman Sam T. Spalding, after which Hon. D. H. Smith, of LaRue county, was elected Chairman, and Rogers Gore, of Washington county, Secretary. The meeting was harmonious throughout. Hon. Sam T. Spalding, of Lebanon, was re-elected a member of the State Executive Committee without opposition, and Mr. T. J. Moore, of Breckenridge county, was elected a member of the State Central Committee. Hon. Chas. Williams, of LaRue county, was chosen Elector, and Mr. G. K. Holbert, of Hardin county, assistant Elector. Dr. O'Connor, of Hardin county, and Mr. Taylor, of Ohio county,

ADDRESS

Delivered By Justus Goebel at the Grave of His Brother, Governor William Goebel.

"Your friend, my brother, lies dead before you, murdered because of his devotion to the people."

"Should not Kentucky, now and here, swear by his blood that her sons will see justice done to those concerned in his foul taking-off? If you should fail in this, then your laws are dead letters."

"If he could speak, he would say now, as often before, 'Let the law take its course.'"

"Will designing men of high station be permitted to use the ignorant-outlaw to further their own ambitions, and when ambition is disappointed, turn red-handed murderers loose under the very roof of the Executive Mansion?"

"Shall the guilty in high places be uncovered? Shall the honor of your State be restored? Or shall his life-blood, spilt on your Capital square, be dried up by the sun, washed away by the rains, and his life sacrifice be forgotten?"

"Measured by the high standard of man, the grandest tribute possible to be paid him to whom you have been so loyal, is to fight for the principles for which he laid down his life, as he fought for them."

"To you, sons of Kentucky, I submit these questions."

"Brother, farewell, until we meet in that better world where outlaws can not be hired, where crime is unknown, where rest comes."

were elected delegates from the Fourth District to the Denver convention. There was no opposition to any of these gentlemen.

THE PLATFORM.

We, the representatives of the Democracy of Kentucky, in convention assembled at Lexington, June 11, 1908, reaffirm our allegiance and devotion to the principles of the Democratic party as represented by Jefferson and advocated by a long line of illustrious leaders, and as set forth in the National Democratic platform of 1904.

We endorse, and point with satisfaction to the wise, honest and economical conduct of the State Government by the Democratic Administration of Gov. J. C. W. Beckham and his associates in office.

We disapprove and condemn the weak, vacillating, hypocritical and arbitrary conduct of our State affairs by the present Republican Administration. We instruct the delegates elected by this convention to cast the vote of Kentucky as a unit upon all questions and matters coming before the National Democratic Convention to be held at Denver, Col., July 7, 1908, and they are hereby further instructed to vote for William J. Bryan as the nominee for President by said convention, and continue to vote for him until he shall be nominated.

Judge John Burton, of Lebanon; Judge J. W. Cloyd, of Campbellsville, and Mr. Wm. Montgomery, of Elizabethtown, were important factors in "smoothing" the few little wrinkles of discord in the Democratic cloth on last Wednesday night in Lexington.

Since the meeting of the Democrats in Lexington last Thursday the Evening Post has been having fits and spasms daily.

First Services In New Church.

The Church of Christ, worshipping at Old Fair Mount will hold the first services in their new chapel on the third Lord's Day in June. Prof. D. H. Friend will preach the discourse at 11 o'clock Sunday morning. Prof. Friend has taught history, elocution and Bible in Potter Bible College, Bowling Green, Ky., for a number of years and is an interesting and edifying speaker. Everybody is cordially invited to attend the spiritual feast at 11 o'clock and a little later in the day we expect to enjoy a feast of a different kind to which every one is as cordially invited.

H. L. OLMSTEAD, Evangelist.

Bucklen's Arnica Salve Wins.

Tom Moore, of Rural Route 1, Cochran, Ga., writes: "I had a bad sore come on the instep of my foot and could find nothing that would heal it until I applied Bucklen's Arnica Salve. Less than half of a 25 cent-bottle won the day for me by affecting a perfect cure. Sold under guarantee at Haydon & Robertson's drug store."

A Prayer.

When joy and laughter rock the world
And children laugh on every side,
When selfishness has been forgot
And hands and hearts are opened wide,
And shoulders bend to help the weak,
And hands reach out to guide along
The feeble ones, and all are kin,
And all the world is sweet with song—

When jealousies are pushed aside,
And envy finds no dwelling place;
When strong, and erst-aggressive ones,
Lift up the feeble in the race,
When beggars reap a harvest great
That make up for the year's scant dole,
When men are moving heart to heart
And standing soul to soul—

When it is joy to fare abroad,
And it is pleasure just to live,
And life's one bitter drop is that
Alas! we have not more to give!
We ask, O God, thy comfort for
The hearts bereft that grieve and break,
For those no open hands may help!
Dear God! for the Redeemer's sake!

Silver Jubilee.

Lebanon Enterprise: Next Wednesday, June 17, 1908, will be the twenty-fifth anniversary of the ordination to the priesthood of the Rev. Joseph A. Hogarty, of St. Augustine's church, this city, and the event will be duly celebrated by his entire congregation.

An elaborate program has been prepared, consisting in part of a series of religious services beginning with the men of the congregation going in a body to Holy Communion next Sunday for the intention of Father Hogarty. On Monday morning the married ladies of the congregation will go to Holy Communion in a body, for the same purpose, on Tuesday morning the members of the Young Ladies' Sodality, followed on Wednesday morning by the school children.

On Wednesday morning the Jubilee Mass will be offered with Father Hogarty as Celebrant.

On Tuesday evening, June 16, the day before the Jubilee, the congregation will meet at the church at 7:30 p. m., for the purpose of expressing, in various ways, their sincere esteem for their worthy pastor, and their appreciation of his fourteen years of arduous and zealous labor among them. At this meeting addresses will be made by Judge J. P. Thompson, Judge Rives and Mr. C. C. Boldrick. The Hon. John Barr will be master of ceremonies.

The music on Wednesday will be under the direction of Miss Jeanette Hilpp, Mrs. Luan Abell and Mr. Wm. Timmons.

After the Jubilee Mass, on Wednesday, a banquet, under the auspices of the ladies of the congregation, will be given to the Clergy at the School hall.

The celebration will be a memorable one in the history of St. Augustine's congregation.

Harmony in the Democratic party doesn't "agree" with Dick Knott; it makes him bilious.

DIAMOND RING

Filched By Showman But Recovered By Detective Thompson.

Marion County Leader: Detective J. A. Thompson has again done some clever work. On circus day Mr. James Phillips, son of Mr. Joe C. Phillips, went to Woodson Meaux's barber shop, took from his finger a diamond ring and placed it near him while he washed his hands. After he dried his hands, he forgot the jewel and settled down in the barber's chair for a shave and after the barber had finished his shave and called "next" Mr. Phillips went out on the street and remained some time before he thought of his ring and hurried back to the barber shop. The diamond had disappeared and he was a worried and downcast boy. His recollection of every one in the room at the time was good, and the memory of a stranger, whom the next morning he suspected as belonging to the circus, rose vividly in his mind. He telephoned to the police authorities at Shelbyville, where the circus exhibited the next day, and described the man whom he suspected. The chief of police there made a diligent search and telephoned back that the man was not there, but it was thought that he was in Louisville where the show people were to be the next day. Detective Thompson was out of the city when Mr. Phillips was in his deepest trouble, but he arrived home the day the circus was to be in Louisville and the case was given him with all the details. The detective left immediately for Louisville and after arriving there made a round of the pawn shops, but the ring could not be found at any of them. There was but one thing to do—make a search for the man whom Mr. Phillips described. So Mr. Thompson did it and after a search of several hours he landed his man after putting a convincing song to him, the sneak "coughed up" the precious jewel. The ring was a very valuable one to Mr. Phillips, being over 100 years old and having been in his mother's family these many years, his happiness on the recovery of it cannot be related by our pen.

Marion County.

Falcon: The announcement of the engagement of Miss Pearl Burnside to Mr. Richard S. Putnam has been published. They will be married at Columbus, Ga., on Wednesday, June 24th.

Dr. E. M. Miller, of New Hope, registered as a licensed dentist in the county clerk's office Wednesday. He will practice at Loretto.

Miss Willie May Hash and Mr. John Lankin, popular people of the Raywick precinct, were married in the county clerk's office Wednesday at high noon, by Rev. T. M. Cornelison.

Elbert Elerd, nineteen years of age, an employee of the Royer Wheel Co., died of appendicitis Tuesday evening.

Mrs. John R. Reynolds, aged 62, died Monday morning at 5 o'clock, at her home on the Barbour's Mill pike about five miles from Lebanon.

Mr. James Bunnell, who until a few weeks ago, was engaged in the plumbing business in this city, will leave tonight for Campbellsville, where he has formed a partnership with Mr. Matt Heizer and they will conduct a general plumbing and tinning business. Mr. Bunnell is a first-class mechanic, has had years of experience, and will make good wherever he goes, but Lebanon regrets to lose him, and his family as citizens.

FARM NOTES.

Pumpkins growing in the corn rob the corn of nothing which it needs, and it gives the farmer an abundance of good feed for the cattle during the winter.

Keep in touch with the young stock during the summer. Visit them at least once a week. Take them some salt. In this way you will keep them from getting too wild.

Blue grass provides the most satisfactory pasture as it forms a firm sod not injured by the trampling of the cattle. It is a persistent grower, and it is rich in protein.

Almost every farmer will find the silo a profitable investment. By its aid you can provide succulent feed for the cows the year round, and thus keep the milk flow up to the top notch all the time.

Mare's milk for the colt is best, of course, but the little fellows can be raised on cow's milk if it is managed right. The mare's milk is thinner and sweeter than cow's milk, so that in feeding the colts cow's milk it should be diluted and sweetened slightly.

With the coming of warmer weather, and the time of year when the mid-day sun is strong, do not forget that the sheep and lambs need shade. If there are no trees in the pasture, provide some kind of shelter. One can be made out of rough boards and thatch roof in the fence corner.

Get the habit! What habit? The habit of doing your farm work on time and according to the most approved methods. In other words get the habit of getting out of the ruts and staying out. The farmer is the most prone to get into habits that are bad and then sticking to them, so that it is hard to believe sometimes that he has any sense at all. Get the habit of getting out of the old bad habits and getting into good new habits.

Feed the skim milk don't make cheese. Cheese sold off the farm takes more nitrogen than butter, the loss being about one dollar's worth of nitrogen for every 1,000 pounds of milk used. If you sell butter you sell only the butter fat, which has no particular fertilizing value. If you get your skim milk back and feed it to pigs you save at least 75 per cent. of the fertilizing material in the milk. There can be no objection to making and selling cheese, however, if the plan of farming includes some means of restoring the nitrogen and phosphates sent out in this way.

Ringbone that has become firmly established upon a horse's leg is hard to treat. Firing seems the most satisfactory method, but this should be done by a good veterinarian. In its early stages ringbone may sometimes be cured by proper shoeing which will straighten the foot and relieve the strain which causes the trouble. Ringbone is caused by injury to the tendons of the foot or by blows, sprains, or overworking before the bones have been fully formed and hardened. It is regarded as one of the diseases which may be transmitted by heredity, or, rather, the tendency to it may be transmitted.

Pigs in the clover now mean dollars in the pocket next fall. The clover supplies the young animals with the material out of which to build up a good frame. When clover is fed in abundance in the form of green, succulent herbage, it is so readily eaten and digested that it makes it possible to soon begin the feeding of corn to advantage. It has been found that under such conditions the pigs make an economical growth on corn and clover. A great many farmers do not appreciate the value of clover to the growing pigs. If they cannot be pastured on it they should have it cut and brought to them. Alfalfa is of the same general nature and can take the place of clover where it can be grown.

WILLIAM PITT.

AMERICAN VOTERS

Will Put a Stop to Legalized Robbery By Electing Bryan President.

As wages are falling and meat and bread are costing more, with many people out of work, it is time to take stock and reckon how to provide for the future. The panic and present business depression have demolished the Republican theory that the tariff which protects the trusts produces prosperity. The high prices the trusts have charged for their products was one of the chief causes of the panic, and although the trusts made money other people had to pay it as long as they could, but even the game of boosting prices cannot prevail indefinitely, and the inevitable collapse came, much to the confusion of the Republican politicians. What is called business can adapt itself to almost any political conditions or laws, but it requires time to recuperate from a breakdown of confidence, and confidence cannot be restored until the business world begins to make money again and has surplus profits to invest in new undertakings. That the cost of living still remains so near the high point shows the absolute control of the trusts of most of the necessities of life. After former panics there has always been a period of low prices, which compensated for reduced wages and smaller incomes, and increased consumption, though cheaper goods set the wheels of industry again turning.

The steel trust, the beef trust, the sugar trust, the agricultural machinery trust, the coal trust, the paper trust, and many other trusts are still charging the same high prices for their products as before the panic. The railroad trust, indeed, has already determined to advance freight rates, which will naturally compel merchants to add to the price of the goods they sell, and groceries and provisions being heavy goods, will be the first to suffer. Freight on dry goods and clothing, although very high, does not add so much to their cost. Over-stocked merchants are selling better bargains in dry goods and ready-made clothing, but families with reduced incomes can hardly take advantage of it.

Monopoly and tariff protection, upon which the Republican party is standing pat, allow these things to be, and competition, which has always been relied upon to regulate prices according to supply and demand, is hardly longer among the forces to be reckoned with. It amounts to very much like suspending the force of gravitation and expecting things to keep in their right places.

Conditions are aggravated by private monopoly in conjunction with the government tariff favoritism. Cold-storage trusts and milk trusts all keep up prices. In spite of the law private car lines and refrigerator car combines still tax the consumer, and the producers and growers do not get any of the benefit.

Many people have regarded the present administration as reformers. But what has been done to relieve the people from trust and corporation plundering? Has anything been done cheaper or better or more lasting from the laws that have been enacted? The chief cause of high prices—the tariff—has not been touched. The same percentage of extra tariff profit is still being collected by the trusts and combines, and the Republican congress still stands pat, and no prodding from the White House on the tariff issue, other than on wood pulp and paper, stirs it to action.

The nomination of a president and congressmen is now taking place, and unless there is a new deal the same old protest "doing things" and retarding pat will be continued for the next four years. You may adapt your circumstances to the present unsatisfactory conditions, as the business of the country undoubtedly will, but why not persist in reforms that you know you will benefit by? Are you willing to be plundered forever by the tariff-protected trusts?

Headache?

If it does, you should try Dr. Miles' Anti-Pain Pills. Why not do so. They will relieve the pain in just a few minutes. Ask your druggist. There are 45,000 druggists in the U. S. Ask any of them. A package of 25 doses costs 25 cents. One tablet usually stops a headache. They relieve pain without leaving any disagreeable after-effects— isn't that what you want?

"My son Frank Snyder has used Dr. Miles' Anti-Pain Pills for a long time. He never had anything to help him so much for headache. A year ago he came home, and I was down sick with a dreadful nervous headache. He gave me one of the Anti-Pain Pills, and after while I took another and was entirely relieved. I always keep them in the house now, and gave many away to others suffering with headache."

A GREAT SURGEON HEALING THE POOR

TOUCHED BY THE APPEALS OF THE POOR, BUT REFUSES THE MONEY OF THE RICH.

Louisville Herald: When genius responds to the cry of need we get a picture of the magnificent possibilities of human nature quickened into nobility by the kindling touch of love.

Yesterday a story came from Chicago of a great surgeon, Dr. Albert Jansen, of Berlin, who is attending a convention of his fraternity. Dr. Jansen has a record of achievements in the use of his skill and science that reads like the marvellous. Since his arrival in this country he has been besieged by the wealthy with munificent offers of remuneration for a few hours of his time. He has steadily refused. His genius has placed him where his leisure is worth more to him than gold.

But there came in his mail two pitiful letters, badly written, ungrammatical, misspelled. They were from the parents of poor children, and begged his help. No money was offered. These supplicants had no claim but the claim of suffering upon a source of relief, the plea of weakness extended to power.

And the big man read and heeded. The cry of those letters reached his heart. They did what the promise of reward in terms of dollars could not do. They turned him aside from the enjoyment of his leisure to a work of mercy.

Two little deaf children were taken to a hospital, where went the great surgeon. With all the skill and patience that gold could not purchase he gave himself to the remedying of their complaint. In a few hours the miracles were wrought. The little sufferers awakened from their anaesthetic to hear for the first time the music of a mother's voice in sobbing joy.

See what love has wrought! Love in the heart of those parents prompted the seemingly absurd and impossible. Love wrote the prevailing scrawls that captured the great man's sympathy. Love, just broad human love, in the surgeon's soul made him yield to the cry of poverty. Love has made a new world for two little lives. It has brought the songs of the birds into their dreary days. It has opened their minds to all the sweet sounds of voice and instrument. It has unlocked an avenue of education and culture.

What a wonder is this in the midst of a materialistic age, where the clink of gold is the usual worker of wonders, the open sesame to all that the world counts worth while. It is a significant lesson for men. It tells again the old story we are sometimes apt to forget—that love is the supreme power, the transforming influence through which the glory of the race is to be accomplished.

Some day—who can tell us when?—some day love will be the only claim on genius. The love of human brotherhood will be the tie that binds society. It will be enough for the weak to cry, and the strong will respond with aid. It will be enough for the suffering to appeal, and science and skill will be at their disposal. Money will perish with the using, but "Now abideth faith, hope and love, and the greatest of these is love."

"Maud" Is In Demand.

LaRae County Herald: Mules are scarcer in this county at the present than has been the case in many years. Mule buyers state that it would hardly be possible for them to find a car load of mules in the county at the present that are on the market. The heavy shipments the past winter and early spring pretty well cleaned them out, especially that class that is in demand in the various markets. There is a heavy demand for the animals in foreign markets and they are being shipped out of the country in large lots. The demand for them in the Panama Canal alone is sufficient to keep the supply curtailed for several years.

It is predicted by mule buyers that the present high price will prevail for several years yet, as it will be impossible to supply the extra demand that is made for them in the canal zone and foreign markets and at the same time keep up the home demand. That the mule raising industry will be a paying one in this country for several seasons is a fact that is not disputed and it is predicted that a larger number of them will be raised than has heretofore been the case.

A Grand Family Medicine.

"It gives me pleasure to speak a good word for Electric Bitters," writes Mr. Frank Conlan, of No. 436 Houston St., New York. "It's a grand family medicine for dyspepsia and liver complications; while for lame back and weak kidneys it cannot be too highly recommended." Electric Bitters regulate the digestive functions, purify the blood, and impart renewed vigor and vitality to the weak and debilitated of both sexes. SENATOR JAMES P. CLARKE.

DECETTION.

Government Conducted In the Interest of the Trust.

Since the census bureau has been made a permanent institution costing millions every year, and for which \$14,000,000 is asked to take the next census, it has become a most partisan institution. It is charged by the Associated Press and the American Newspaper Publishers' association at their late annual meeting, with issuing "false reports of news print paper prices which were recently furnished to congress by the director of the census bureau. The newspapers here represented used approximately 80 per cent. of the news print paper consumed in the United States. We denounce the quotations as submitted to congress as misleading and unworthy of credence. The retortation of the census bureau, the statistical director after the error had been called to public attention tends to shake public confidence and respect for statistics thus compiled."

It is rather a satisfaction to have the charge of partisan statistics made by Democrats substantiated by such a high authority, but it is rather late in the day for such an acknowledgment by Republican publishers, whose papers have derided the Democratic claim. The fact is that not only the census bureau, but the statistical bureau of other departments, have all been run in the interest of the tariff protected interests, and the "false reports" now charged against the census bureau can be also proved against the labor bureau and the statistical bureau of the department of commerce and labor.

It is quite doubtful if there has ever been an honest census, but it is certain that the statistics adduced from the material gathered have been systematically arranged to support the theory and practice of the protective tariff.

Dishonest and garbled statistics issued by government authority for partisan purposes to deceive the people is the greatest crime that can be committed against the taxpayers who pay the bills. One of the first reforms that the Democratic party should undertake, if granted power by the voters, is to reorganize the issue of statistics by the government. Let us have an honest census and honest statistics founded thereon, and we call on our honest Republican brethren to join in urging it on congress.

GIRL TAKES MIDNIGHT RIDE ON A WHITE HOG

THOUGHT SHE HAD BEEN CAPTURED BY A GHOST IN HER OWN HOUSE.

Skowhegan, Me.—To be awakened from a sound sleep at two a. m. by weird noises and then to be carried downstairs and a quarter of a mile from home on the back of a strange white creature which aroused suspicions of ghosts was the unusual experience of the 16-year-old daughter of Frank Lane of this town.

Mr. Lane was first awakened by strange sounds. He decided the wind was rattling about the house corner, and went to sleep again. Soon after the noises were heard again, and this time more distinct. In fact, they

The Hog Was Making Off with His Daughter.

seemed to be in the hall. It was like the hiss of escaping steam or the swish of bushes.

Mr. Lane investigated. His daughter had heard the same noises and they appeared in the hall from their rooms simultaneously. They were greeted with an unusual sight. Lumbering toward them was a huge white object. Suddenly there was a crash and the sound of breaking glass. The strange object, which looked as ghosts are pictured, had collided with a piece of furniture and broken a mirror.

Mr. Lane's daughter ran toward her father. Before she reached him the ghost-like object met her. Together they rolled downstairs.

By this time Mr. Lane had collected his thoughts and realized that a big hog which he kept in the stable had become loose and in some way had gotten into the house and upstairs, and that the hog was now making off with the daughter of the family riding on its back. He started in pursuit of the animal. After following about a quarter of a mile he found the young woman lying beside the road in a badly frightened condition. He took her home in his arms, and in a short time quiet was restored to the household, though the women folks slept little for the remainder of the night.

The pig was later found at a neighbor's, none the worse from its experience of the night before, quietly rooting in the mud of the stable yard.

WILDCAT IN FREIGHT CAR.

Now It's Loose Near South Amboy; Natives Go Armed.

South Amboy, N. J.—Many residents of this town have armed themselves in anticipation of a sudden attack by a supposed wild cat, which escaped from a Pennsylvania freight car. The car contained lumber consigned to the South Amboy Lumber and Supply company. It came to the company's yards from North Carolina, and was on the way nearly a week.

As the lumber handlers started to open the car they heard a scratching noise inside, and when they opened the door they saw in the shadow two gleaming eyes. None of the men wanted to enter. Finally Edward Letts hit upon the happy expedient of going to the other side of the car and banging it with a crowbar. The others drew away from the door to give the animal a chance to come out. It did.

It proved to be a wild cat, or southern lynx, and the lumber handlers say it was about four feet long, though its rapid exit from the lumber yard may have caused an optical delusion in this respect.

It was seen later in the day drinking from a spring near the railroad. The lumber company has offered a reward for its capture dead or alive.

Girl Flew on a Handcar.

Allentown, Ark.—Determined that she would not marry any other than her own choice, Miss Birdie Drickley, a girl in her teens, scooted down the fire escape after a merry chase with the man her father selected for her, and, making for the railroad, successfully pleaded with the foreman of a section gang, who carried her on a handcar to Minturn to marry Sam Smith, her sweetheart. The bridegroom, however, had gone on to Hoxie, and when Miss Birdie reached there she found her father and Smith awaiting her. The father had hurried cross-country on horseback. He exacted a promise of Smith to return home for a formal marriage ceremony, and all returned here, when the knot was tied.

...Description of Hotel, Spring and Grounds...

THE HOTEL at Tatham Springs, Washington County, Ky., is situated on Carey Island, in Chaplin River, at the intersection of Glenn's Creek. The hills surrounding the valley are three hundred feet high, from the top of which the prospect is varied and sublime. Chaplin river, which is stocked with fine game fish, flows within one hundred feet of the hotel, at which place it makes a grand circuit of three miles returning within ninety feet, leaving a picturesque ridge, through which a tunnel has been cut, furnishing water for a mill.

The Spring is really an artesian well spouting from about one hundred feet below the surface, pouring out its healing waters in sufficient quantities to supply the world.

The water is a mild alkaline diuretic, with tonic and alterative properties of the most remarkable character. The analysis which is published in this pamphlet will suggest its curative properties, but the many wonderful cures of stomach, kidney and liver diseases by the use of this water, convinces us that nature in her subtle laboratory deep in the earth, has given to it properties which the chemist cannot account for.

The water has actually cured cases of Bright's Disease, Diabetes, Gravel, Rheumatism, Cystitis, Gastric and Intestinal Catarrhs, Jaundice, every form of Dyspepsia and many other diseases.

The scenery around the Island and Hotel is picturesque, the fishing and boating superb. Carey Island, on which the Hotel is located, is high and dry, containing about six acres. The hotel is well ventilated, with broad verandas on every side, and is equipped with all modern improvements, and is conducted by Mr. and Mrs. J. S. Weathers in all departments in the very best manner.

The Hotel will be open for the accommodation of the public after March 1, in each year, at the following rates:

Board, per day.....	\$ 2.00
Board, per week.....	10.00
Board, per month.....	35.00

A first-class livery stable will be run in connection with the Hotel, and special attention and care will be given private conveyances.

The Spring Hotel

Is reached by public conveyances from Springfield, Bloomfield and Lawrenceburg. These conveyances meet daily trains at these points. A long distance telephone line connects the Spring with the telephone exchanges at Louisville, Springfield, Lawrenceburg and all points in Central Kentucky. Mails arrive and leave Spring daily.

To The Members of The Burley Tobacco Society:

The Executive Board of the Burley Tobacco Society recommends that no member of the Society shall sell his warehouse receipts or transfer his tobacco to anyone:

- 1st. Because our tobacco is selling rapidly; we have to this date sold at marked prices 24,000 hogsheads out of the 52,000 hogsheads.
- 2nd. Because we have little tobacco left of grades below 16 to 30 cents.
- 3rd. Because the 1907 crop will grade much higher than the 1906.
- 4th. Because the 1908 crop has been eliminated beyond our highest expectation.

This advice is given to protect those who may not be informed.

Executive Board of The Burley Tobacco Society,

CLARENCE LeBUS, President.

A DANGEROUS GAME.

Louisville Herald: No one can deny now that Secretary Taft holds a winning hand, one that under all ordinary circumstances will take any trick that the cards may combine to present. His control of the National Committee has resulted in the withdrawal of all the contests, and the certainty of seating every delegate numbered among his supporters in the temporary organization of the convention.

But there are some hands that it is dangerous for any man, however expert, to hold in a game. When a player's strength lies in having more aces than can be found in the orthodox deck, the discovery of this fact by his opponents is apt to recoil upon him to his hurt. It appears as if this were the kind of hand that Taft is expecting to carry Chicago with, and probability is that in the convention it will go through without being called. What we fear is the effect that is now being produced on the voters throughout the country, who at this stage of the proceedings are simply interested spectators, but later will have a share in the game themselves.

Until the last week we believed that the Republican party with Taft for its leader had a walk over at the approaching election. Today we find our confidence somewhat shaken. The Secretary of War is asking his friends to bear a heavy burden in the coming fight; he is handicapping them by the pursuit of methods needlessly flimsy and raw. The acts of the present will have to be faced in the future.

As soon as Chicago completes its work, and Mr. Taft reaps the reward of Hitchcock's none too scrupulous methods, the Democrats will raise the cry that the Republican nominee is the choice of the Federal machine, that he secured his delegated support by fraud, and was afraid to have an honest hearing of the contests arising out of these frauds before an impartial committee. It is this form of attack, too well substantiated by facts, that the Republican press and platform will have to fight.

Here in Louisville we have no defense to offer. We know that in the Fifth District Mr. Taft's workers violated every principle of fairness and decency. We are told that in other parts of the State matters were little more creditable. The unfortunate aspect of the whole thing is that the treatment accorded the contestants at Chicago has ruined every prospect of bridging over the gulf and uniting the several factions of the party in Kentucky.

Had there been any semblance of a desire to play the game fairly, instead of with loaded dice, good hope might have been entertained of rallying the forces in this State and holding them for Taft, because of the faith in his personal magnanimity and loyalty to the square deal principle; but now that Bradley, the leader of the Taft opposition in Kentucky, has been selected to fight the battle of the allies on the floor of the convention the split will be widened beyond the point where it can easily be overcome.

The Bradley following in this State is no inconsiderable portion of the Re-

publican party. Since the former Governor has been forced by Hitchcock's tactics to take his case into the convention, it is hardly to be expected that in the ensuing campaign he will be found advocating the cause of the man whose chief agent made a fair hearing impossible before the National Committee. The silence of Bradley will be a significant factor in the fight, and will not contribute to the winning of the State for the Republicans.

About all that is left in Kentucky for honest Republicans to do is to wage war against Bryanism and the reconstructed Democratic machine. We regret that the odds of our leader has been robbed of its glory. We regret that the united ranks of the party cannot rejoice in finding his name and his principles in the teeth of the enemy with defiant challenge. It takes the spirit out of the conflict when the soldiers have lost faith in their commander. But nevertheless it remains the duty of Republicans to defend the Democratic combination that threatens to recapture the ground we have won after years of effort. We must go into the fight as cheerfully as we may with the heavy handicap that unwise and unscrupulous leadership has forced to Ernst, Bullitt, Hitchcock and the rest of those betrayers of Republican principles. If we win the glory is due to Kentucky Republicanism.

Base Ball.

The Louisville Sluggers and Springfield played two games of base ball last week at High School park, in both of which contests the locals were victorious. The game which was to have been played on Wednesday was stopped because of rain, with the score 4 to 1 in favor of Springfield, in the fourth inning. On Thursday a double header was played. In the first game Springfield had no trouble in solving the curves of Kimbel, the crack High School pitcher, and won 11 to 7. In the second game only five innings were played, Springfield winning 3 to 2.

The Louisville Sluggers did not exactly prove themselves to be sluggers of the ball but they impressed the "fans" with the fact that they were a set of perfect little gentlemen and made many friends while here. Every man on the team was under twenty years of age, but they played like older and more experienced players.

The following is the tabulated score of the two games:

First Game.
Innings.....1 2 3 4 5 6 7 8 9--T.
Louisville S.....1 0 0 2 0 1 0--7.
Springfield.....0 0 1 3 0 2 0--11.
Batteries--Kimbel and Mattingly;
Gibbs and Marks.

Second Game.
Innings.....1 2 3 4 5--T.
Louisville S.....1 0 1 0 0--2.
Springfield.....0 2 1 0 0--3.
Batteries--Lewis and Mattingly;
Shultz and Marks.

To-day and to-morrow the home team will play the strong Bourne & Bond team of Louisville.

Winning Honors.

In the oratorical contest of Center College, conducted during the commencement exercises at Danville, Mr. John Shuck McElroy, Jr., won over quite a number of contestants and will represent Center College in the Inter-collegiate contest to be held in July in one of the Central Kentucky Chautauquas. This is the second honor Mr. McElroy has won during the year, having captured the Ernst prize a few months ago. His friends predict that he will carry off the honors in the Inter-collegiate contest.

Death of Child.

Margaret Bobbitt, the eight-year-old daughter of Mr. and Mrs. Ed Bobbitt, died at the home of her grandfather, Mr. T. J. Smith, near Mooresville last Friday. Some time ago the little girl suffered an attack of appendicitis, which drifted into tuberculosis which was the direct cause of the child's death. The funeral was on Saturday, the interment being in the Camp Ground cemetery. The death of the little girl comes as a great blow to the parents and relatives who loved her as a sweet, pure child.

Prize For Jack McChord.

Jack McChord wins another honor in Center College at Danville. This time he captures the "Sidney Johnson" prize of a gold watch for the highest average in all studies in the Junior class during the year. Jack's Springfield friends are always glad to hear of his successes.

Protracted Meeting at Fenwick.

Rev. W. W. Stout, a talented young minister, is engaged in holding a series of meetings in the school house at Fenwick.

Mr. Stout is in the employ of the Executive Board of Central Baptist Association. He will be at Fenwick for about two weeks and should have the attendance and support of the Christian people of that community.

ST. CATHERINE'S
COMMENCEMENT

On Yesterday One of the Happiest in the History of the Institution.

The eighty-sixth annual commencement of St. Catherine of Sienna Academy took place in the magnificent hall of the new St. Catherine on June 16. An immense audience was assembled. The program was brimful of good things. The orchestra, composed of attractive musicians, delighted all with their selections.

1st Violin--Piety Barber, Marie Barber, Mary Byers.
2nd Violin--Marie Beinkampen, Luella Bannan.

1st Mandolin--Helen Jones, Katherine Newman.
2nd Mandolin--Nellie McGill, Sadie Parrott.

Viola--Margaret Davis.
Cello--Mary Curran.
Trombone--Corinne Mahoney.
Cornet--Geneva Silliman, Louise Barber, Alice Prather.
Harp--Helen Baker.
Drum--Nellie McAuliffe.
Piano--Julia Goodin.

The music was excellent and reflected credit upon the Sisters' training.

Drama, The Christians Under Trojan, was well received and held the audience in wrapt attention.

The Emperor Trojan--Miss Louise Gill.

The Empress Plotina--Miss Emily Talbott.

Lucius, A Young Nobleman--Miss Piety Barber.

Domitella, a Christian Maiden--Miss Helen Jones.

Hermogones, A Friend of Lucius--Miss Gladys Randall.

Theodora, A Sister of Lucius--Miss Marie Barber.

The chorus, Over the Fields of Clover was a dainty, beautiful drill, while the sweet strains of music were entrancing.

Father Dunn delivered an address to the Seniors, showing them that mighty undertakings could not be accomplished in a day. He congratulated the Sisters of St. Catherine, guided by Very Rev. Mother Magdalen, for their success and energy in erecting the handsome building just now completed for the education of young ladies. His address was thoroughly enjoyed by all.

The Alumnae meeting took place immediately after the commencement exercises. Seventy five of the Alumnae members were present and were ushered into the banquet hall, where the college colors, purple and gold, floated among the graceful floral decorations.

As far as the eye could reach a story of love, culture and devotion of St. Catherine's Sisters could be told. Mrs. Birmingham, the President of the Alumnae meeting, in an attractive manner, presided. An elaborate course banquet was served. Mrs. M. W. Hyatt was the clever toastmistress and in her own sweet style presented some of the most beautiful toasts, which were responded to by Miss May Tighe--Since last we met in a pleasing manner.

Our Alumnae by Miss Elise Durrett was full of gems of exquisite thought, a real treat.
Mrs. Oscar Walker, in her charming manner, responded to the Broken Chain. The St. Catherine of the Future was pictured by Miss Helen Jones in her winsome style.
The toasts by Mrs. M. W. Hyatt to the Rev. Mother Magdalen and Sister Mary Pius were replete with golden reminiscences.
The business meeting followed. Mrs. Oscar Walker was elected President; Mrs. Burtie, Vice President; Miss Elise Durrett, Secretary, Miss Mattie Robertson, Treasurer; Miss Nellie Fogarty, Toastmistress.

Good cheer prevailed and the Alumnae Association of St. Catherine had a meeting long to be remembered.

We are proud of St. Catherine, proud of the magnificent body of women it has sent out to fill places in all of the States. No other school offers better or more up-to-date educational advantages for young ladies than does the new St. Catherine.

Mrs. J. H. Lawrence has sold her
property in the Southern part of town to
Mr. Frank James. The consideration
was \$875.

The lawn fete given at the Grundy
Home last Friday was a very enjoyable
affair and netted over \$50 for the fund
which is being raised for the purpose of
purchasing a wagonette for the or-
phans.

The ladies of the Mackville Christian
church will give a court day dinner in

months.

Wheat is being harvested this week
and the prospect is for an unusual yield
of the golden grain this year. Wheat
is demanding a good price, and the
farmers will doubtless be greatly re-
lieved from the effects of the panic.

and his having lived here in his boy-
hood days was the cause of the largest
and best meeting of the Lodge ever
held in Springfield.

Rev. R. E. C. Lawson preached a
very interesting and helpful sermon to
a large and appreciative audience at
the Valley Hill school house on last
Sunday afternoon.

The directors of the Washington
County Fair Association will hold a
meeting Saturday, when they will de-
cide many questions for the betterment
of the coming fair, beginning August
12.

The census of the Washington county
schools for the next year gives a total
of 3,655 white pupils and 848 colored,
ranging from 6 to 20 years. This is a
loss of 70 pupils compared with last
year's report which gave an entire
census of 4,273 pupils.

Ten years ago the number of children
of school age in Washington county
was 4,750, which gives a gradual de-
crease of about 250 children in the past
decade. The census in some instances is
not as full as it should be, as some of
the census takers have not been as dili-
gent in visiting the homes and making
inquiries, in order to make an absolutely
correct list, which the law requires.
But as a whole the census takers have
done commendable work.

International Sunday School As- sociation.

The International Sunday School As-
sociation will meet in Louisville on
Thursday of this week and continue un-
til Tuesday, the 23rd. This Association
includes as its territory all the North
American continent and the outlying
islands. It meets every three years
and plans the general work of the In-
ternational Sunday School Union.
The city will probably be crowded to
its utmost capacity, as there will be be-
tween ten and fifteen thousand visitors
to the Association, besides those who
will take advantage of the special
rates.

The Sunday School Reporter says:
The United States is the greatest
Sunday school nation in the world, and
it has been made so largely by the Sun-
day School Association. We enroll more
in our Sunday schools than all the rest
of the civilized world combined. The
Sunday school leaders of the world al-
most without exception, reside in the
United States. Of the scores of profes-
sional Sunday school books now on the
market, with the exception of per-
haps a half dozen, all have been writ-
ten by authors of the United States.
Of all the modern movements and
methods in Sunday school work, only a
very few have originated outside of the
United States. Most of the men and
women who have made the United
States the greatest Sunday school na-
tion in the world are alive today and
will be in attendance upon the great
Convention that meets with us this
month. It will be an inspiration to mix
and mingle with them and hear them
speak."

Any one interested in Sunday school
work can hardly afford to miss this
splendid opportunity to come in touch
with the greatest Sunday school work-
ers in the world.

A special rate of \$2.03 has been an-
nounced.

We understand that several of the
Sunday school enthusiasts of Spring-
field are attending the convention.

At the National Capital

Gossip of People and Events
Gathered in Washington

Rapid Strides of Capital in Population

WASHINGTON.—The census taken recently by the police force of the District of Columbia indicates that the national capital is growing in population at an exceptional rate. The increase in inhabitants for the last year is reported as 9,812, which would mean a growth, if steadily maintained, of almost 100,000 for the current decade.

Of course such a rate of growth has not been maintained since 1900. According to the federal census of that year, Washington's population was 278,718. The population reported by the police in 1908 is 339,403, so that the increase in eight years has been 60,685. By 1910 Washington may be expected to gain at least 15,000 more inhabitants and its population to rise to about 355,000.

Compared with its nearest rival—Baltimore—Washington is making rapid strides forward. Baltimore percentage of growth between 1890 and 1900 was 17.1, while Washington's was 20.9. The disparity in expansion

will undoubtedly be greater in the decade from 1900 to 1910, for Baltimore's growth was checked for a year or more by the losses of the great fire of 1904, while Washington's growth has been stimulated by enormous building operations most of them conducted under the auspices of the national government.

The check to business resulting from last fall's panic will also be felt less in Washington than in perhaps any other American city. The national capital does not depend for a livelihood on manufacturers or commerce, and its workers have steady employment assured them because the government's activities are being continually extended.

In its physical aspect Washington has gained enormously in attractiveness in the last eight or ten years. It is an ideal residence city, and its charms appeal most potently to Americans with leisure enough to enjoy them. It has become the winter home of families of wealth and refinement from all parts of the union, and its quiet, order and beauty make living within its borders constant satisfaction. It still has great potentialities in the way of architectural development, and its material prosperity is secured by ever-broadening activities of the great governmental machine.

Former Blacksmith a Power in Congress

BEFORE Jim Tawney got into politics up in Minnesota he was a blacksmith. He was so rough that they had to throw him down to put him into a boiled shirt, some of his warm admirers say.

That blacksmith training proved mighty good experience for him, and, applying blacksmith methods to his congressional career, he has forced to the front so rapidly that they do say down here in Washington that if Speaker Cannon doesn't look out some day he will get run over, because Jim Tawney is coming with wonderful strides.

Tawney is the man who would be picked out at a glance as the real ward politician of the house. He is just the kind of a man the voter always finds ready to tell him how to vote at the primary; the type of man who always leads the revolt in a caucus.

and dried convention—in short, the practical politician who gets out the vote.

Tawney, when he came to congress, wasn't welcomed within the big tent. He had to wait around on the outside. Then the blacksmith got busy. He just walked off the reservation, taking enough innocent Republicans with him to spill the beans for the big five. And so it came to pass that the big fellows reckoned with Tawney, and now he is chairman of the most important committee in the house—the appropriations. Hon. Jim is a fighter from Pichtersville. But he is that kind of a fighter who knows when to fight and when to let the other fellow do the fighting.

Only once has Tawney been whipped. That once came from Congressman Goodell of Cincinnati, when he got the mail carriers' pay increased, in spite of Tawney and Chairman Overstreet. The whipping didn't tickle Tawney. So, when the fight to hold down the appropriation on the agricultural bill came up, Tawney got guarding the treasury and let Scott of Kansas tackle the job. Tawney went to his committee room. The farmers wiped up the floor with Scott.

War Department Seeking a Legal Drink

THE war department is looking for a beverage to take the place of beer and whisky at army posts. The beverage must not be of the class of drinks prohibited by the anticruelty law.

The federal courts have never passed upon the question of the percentage of alcohol which will render a beverage an intoxicant. The state courts also have been chary of deciding the question. In certain cases the authorities have spoken, however.

Thus, in Rhode Island, it has been held that where beer contained 2.29 per cent. of alcohol no evidence was necessary to show it was intoxicating. In Texas, a tonic containing from 3 1/2 to 4 per cent. of alcohol has been held to be intoxicating liquor. By the laws of Massachusetts it is held that a beverage containing more than one per cent. of alcohol at 60 Fahrenheit is intoxicating.

The law in regard to the nonsale of intoxicants in post exchanges, most of course, be followed in good faith by the army. In the absence of any federal decision as to the question at issue, the authorities must fall back on the decision of the state courts. These vary materially, and, therefore, the department may seek the solution in a practical way by ascertaining the view taken in prohibition states as to the sale of any given drink.

Whisky post exchanges are situated in a prohibition state it is considered entirely safe to prohibit the sale of such exchanges of preparations not allowed to be sold under the prohibition laws of the state. Where such exchanges are situated in nonprohibition states it would be safe to maintain whether any specific drink is allowed sold in any prohibition state and let the exchange be guided accordingly.

Senators Knox and Crane Real Chummy

UNITED States senators often become good friends, but somehow they are not prone to becoming real chummy with one another. Exception occurs from time to time to prove the rule. One of these exceptions applies to Senator Philander C. Knox of Pennsylvania and Senator W. Murray Crane of Massachusetts. If the afternoon wanes without their meeting, one is likely to start out to see where the other is and to learn what has happened.

Often the Knox automobile and the Crane automobile exchange honks in the morning. Not infrequently the senators ride to the capitol in the same car. When the luncheon hour comes, Senator Crane may descend to the committee on rules, perhaps herald his advent by turning out the lights in the vestibule, and then lead his

crony off to the senate restaurant.

The fondness that Senators Crane and Knox evince for eating together is reminiscent of the fondness that former Senator Edmunds of Vermont and the late Senator Allen G. Thurman of Ohio used to have for drinking together. That was in the earlier days, when drinking at the capitol was not frowned upon.

All the oldsters in political Washington are fond of recalling that story, how the two senators kept a black bottle in the room of the committee on judiciary. They were certain to adjourn there twice or thrice every afternoon that the senate held a long session. It was at first a marvel why the two men seemed to have the same thought at the same moment, and began to make tracks simultaneously from different parts of the senate chamber—one being a Democrat and the other a Republican—toward that committee room.

It turned out that they had prearranged signals. The "Old Roman's" signal was to pull out that famous red bandanna handkerchief and to blow his nose with clariou loudness.

A FAIR Proposition!

To Bankers, Brokers and Business Men:

You whose conservative training and whose business methods prompt you to look askance at any enterprise, banking, mercantile, industrial or what not that promises to pay an investor or stockholder more than 6, 7, 8 or 10 per cent., we have a word to say to you.

We know that you know that there are hundreds of enterprises in the United States and throughout the world that pay enormous dividends upon the par value of the stock. You know that there are monopolies which by reason of controlling a particular product make enormous profits. You know that there are very few natural monopolies in the world. You know that any corpora-

tions anywhere fortunate enough to possess a physical property containing a product used all over the world, and sold for a price representing forty or fifty times the cost of production, should enrich its stockholders. You know, if you read the page advertisement in last week's edition, that in it a claim was made by this company, that it possessed a 94 foot ledge of lithographic stone, underlying a 260 acre hill. You know, if you read said advertisement, that no corporation possessing any kind of property never offered to the public greater indisputable proof as to its existence, its character and its value than was furnished in said advertisement.

BRIEFLY PROOFS, To-wit:

The statement made in the report of the United States Geological Survey, that there are but two quarries of lithographic stone in the world, one in Bavaria the other in Brandenburg, Ky. The same United States Government report stating as well that for quality and dependability of supply, the Bavarian quarries are not at this time dependable.

Again, you know, if you read the advertisement referred to, that the greatest expert in the State of Kentucky, after examining our quarry, stated over his signature that it was practically inexhaustible. As a further proof of the "pudlin'" in said advertisement, there was printed, over the signatures of the expert engravers and transferers, who have spent their lives in working upon lithographic stone, positive statements to the effect that the stone from our quarry had produced work equal to any stone that was ever imported from Bavaria.

You know that with two 94 foot ledges of lithographic stone, selling in the markets of the world, at from 11 cents to 50 cents a pound, is easily worth not the \$1,000,000 representing the amount of our capital stock, but up into the hundreds of millions of dollars.

You will know, if you will do us the kindness to read a copy of a letter from Robert Mayer & Company, importers of lithographic stone, that such testimony can not and is not to be discredited.

You know, and we most respectfully submit this proposition, that no corporation could afford to make these statements that have been made by us in the advertisement referred to and in our printed literature, unless they were true, because we are making them to fellow citizens of this Commonwealth, our next door neighbors and not about a property a thousand miles away and out of reach, but a property within a few hours ride of nearly every

citizen in Kentucky, and the proofs we are offering we could not afford to publish, if they were not true, for the simple reason that the source of said proofs are equally within easy reach of one who cares to make an investigation.

To you as an individual and to your patrons and friends, we say that you know that it would be perfect folly for us to make the following proposition unless we are in position to back it up in every way. Here is the proposition: If our claims, and our statement be true, we are offering a stock to the general public that will pay larger dividends than any security ever sold in the state of Kentucky or any other state that we know anything about. Therefore, we will agree to pay expenses and \$10.00 per day for the time consumed of any citizen of this Commonwealth or any other state, who will visit Louisville, examine our proofs of facts, see the stone in the various lithographic houses of the city, examine the work produced from it, consult the engravers and transferers, and experts, who are responsible for the work, examine the quarries at Brandenburg and after such investigation, say over his signature that there is no foundation, but simply for the general claim made, but specifically any claim that is made.

We need the necessary capital to equip our wonderful property with the large plant necessary to produce an output for the world's demand. Every individual who furnishes any proposition of this capital will earn a larger dividend on his investment than any dividend paying security ever marketed in the state of Kentucky.

As a proof: There are 692 lithographic houses alone in the United States. We can furnish a certain 14 of this 692 and pay 20 per cent. net on the entire capitalization. What could we do by furnishing the 692 and other nations as well?

TO THE PUBLIC GENERALLY:

If any of you failed to read the advertisement appearing in last week's issue of this paper, hunt up your old paper or get one from your neighbor or send to the newspaper office or better still make use of the coupon below and send to us for our printed matter containing full particulars.

TO THE WAGE EARNER:

We earnestly ask you to give yourself the benefit of the doubt, obtain a copy of the advertisement and read it, or if you read it, you evidently did not read it carefully, or if you read it carefully you evidently failed to credit the apparently astounding statements made in it. Let us have a heart to heart talk with you. This proposition is open to you also. We accept subscriptions for us the amount of stock as 10 shares, just to give you the opportunity. We say to you that if you can make it for 500 shares which you can obtain for \$250, you will have secured a sufficient number of shares, the income from which will keep your family in comfort the rest of your lives and the lives of your children and your children's children.

We know that it is a serious thing to ask the wage earner to invest his savings in a corporation, but we state without hesitation that he may do so with perfect safety. There is no risk in this proposition, unless we fail to get the necessary money to buy the plant, and if we fail to do this, the Louisville Trust Company, Louisville, Ky., will refund the amount of your subscription with 3 per cent. interest added. If we succeed in doing it, you will

share fairly and equally with the banker, broker, capitalist and ourselves in the tremendous earnings of this company.

If you are still wondering if such good fortune be possible, and there is yet doubt in your mind, you must have an acquaintance or friend in Louisville, this city, if so write to them and ask them to show you the courtesy to come to this office and find out for you if the claims that we have made are true, or if you can come yourself the proposition made to the bankers and brokers is to you also.

Bear in mind we are offering the first 100,000 shares at fifty cents. Immediately upon the sale of the first 100,000 shares we will give the order for the plant. Immediately thereafter, for the additional required, the stock will be sold at par. Make no mistake about this, for it positively will be sold thereafter at par.

In conclusion, there is no problem to solve. We have proven the existence of a tremendously large quarry of lithographic stone; stone that is worth more than the finest marble or onyx, simply because it can be procured from but two quarries in the world, one in Solihoten, Bavaria, the other quarry at Brandenburg, Ky. Write, now, making use of the coupon below.

Based upon the minimum earnings of dividends, subscribers to any part of the first 100,000 shares will secure the stock at one-half its par value, therefore

\$10.00 will buy 20 shares, which will upon minimum estimated earnings pay \$10 annually and the stock one year after plant is in operation should be worth \$160.

\$25.00 will buy 50 shares and should earn \$40 annually; stock should be worth one year after plant is in operation \$400.00.

\$50.00 will buy 100 shares and should earn \$80 annually; stock should be worth one year after plant is in operation \$800.00.

\$100.00 will buy 200 shares and should earn \$160 annually; stock should be worth one year after plant is in operation \$1,600.

\$500.00 will buy 1,000 shares and should earn \$800 annually; stock should be worth one year after production begins \$8,000.

\$1,000 will buy 2,000 shares and should earn \$1,600 annually; stock should be worth one year after production begins \$16,000.00.

The Haunted Stairway

By Temple Bailey

(Copyright)

The stairway rose between walls of solid masonry for 20 stories. It was never used. Indeed it might be questioned if the men and women who shot up and down in the elevators knew of any other mode of ascent or descent.

It was very still on the stairway and rather dim and dark, and gradually it acquired a bad name.

At last a murder was committed on the tenth landing. The murderer was apprehended and this fact added to the terrors of the stairway. Before a month had passed it was called haunted, and men whom no one would have counted superstitious moved their offices to other buildings.

Finally the murder began to attract the attention of the owners. Many of the offices were empty and the rentals were falling off.

"It's got to stop," said Brixton & Brixton; and they put in more electric lights and hired watchmen to patrol the stairway.

But, after a week's trial, the watchman threw up his job. Three other watchmen came and went, and at last Moran, the janitor, was detailed to succeed them. Moran's resignation came in the succinct statement: "Nixie for me."

Brixton, senior, struck his clenched hand impatiently on his desk.

"Such foolishness, Moran," he said. "You may be, but you are not a fool."

"But you'll have to get another man," said Brixton, senior, sent for him and put him on the elevator service. It was getting a little hard to keep elevator boys, and Moran was trustworthy, if he was superstitious.

Again a succession of watchmen came, and went.

Brixton & Brixton consulted a detective agency. "It's ruining our business," they said. "Find out who is playing us such a trick."

From the agency came men, two at a time. It grew to be a most unpopular assignment.

"Good lord," said Giffens, who was on duty the fifth week, "I keep seeing that poor fellow on the stairs with the sun shining in on him. I wonder how he happened to be down so far; his office was on the top floor."

"Maybe 'twas a randyvo," said Murphy, whose unaccountably applied test was, always, "Look for the woman."

They were on the fatal landing. A broad, deep window overlooked the other skyscrapers in the block and showed row after row of twinkling yellow lights, and above them all, the moon, pale in contrast to the glitter and glow of the city night. Moran had made his last trip for the night. The three men stood looking out.

Suddenly a walling cry to a mournful, lilted measure reached their ears. "Somebody's singin'," Giffens gasped. The three Irishmen clung together. "It's Killarney."

"Who's singin' it?" Murphy's bravado was gone.

"My God!" Moran said, "there was a little gurgly in Brown's office—Kate O'Neill—on the sixth floor used to sing—like that. I heard her one time—'Where's she now?' Giffens asked. 'She went away last spring,' Moran said.

The three men stared at one another.

Next day Moran found himself irresistibly drawn toward the haunted landing. It was the noon hour and Giffens and Murphy had gone to lunch. Moran didn't want any lunch. The affair of the night before had upset him, and the plaintive tones of Kate O'Neill still rang in his heart.

Six steps down from the tenth floor and around a curve was the landing, and Moran, following the curve, stopped short, staring.

With her back to him, a woman stood looking out of the window. She turned at the sound of Moran's footsteps.

"It's me," she said. "I've come back."

"Kate O'Neill?" gasped Moran. "Yes, I've been in the hospital. I've been sick."

Moran went up to her. "Kate," he said, "was you here last night?"

She looked at him, wide-eyed. "No," she said, "I was in the hospital. I left there this mornin'."

"My God!" said Moran. She shivered.

"What's the matter?" she asked sharply.

"We heard you singin'—me and two other men. You was singin' 'Killarney.'"

Her hand was over her heart, her eyes dark with horror.

"What am I going to do?" she cried, "what am I going to do? I dream that I come here, and go up and down, and up and down the stairway—and there is no rest."

She paused and went on, white-lipped: "Maybe—it isn't a dream—maybe it's true—maybe I do come—maybe I do."

Her voice died away in a whisper. Moran stood spellbound.

"'Twas likely the wind," he said. Then, suspiciously: "Why did you come?"

"Wearily she condemned herself. 'You know—I killed him.'"

"You?" Moran reeled against the wall and caught at the sill. "I used to come here and sit," she went on, presently. "I came every day and ate my lunch, because it was quiet and no one ever came up the stair-

way. But one day—he came—" She hesitated. "I was singin'—"

Moran bent forward, listening eagerly.

"He stooped and spoke, and he was nice and pleasant. And after that he used to come at noon often, and I liked him, and he would bring things and we would eat lunch together—oysters and birds—I think he was rich. No one ever saw us, for no one ever comes up and down the stairway."

"I told him about my old granny, and how I had left her when I was a child, and how I had been alone in this country since my brother died, and that no home would ever be to me like the little house in the old country with the lake behind it and the low line of hills in front, and sometimes I would sing, and he would listen and plan to take me across the water some day. An' by that time I thought a lot of him, and I'd a' gone anywhere with him—" Her hands were clasped tensely, her little face was working with emotion.

"He used to bring me presents and put them behind that piece of broken tile. He dug a hole with his knife in the plaster underneath, and I'd find things there. One day I found a magazine on the window-sill with a paper-knife across it to hold it down, and between the leaves were \$100 in bills, and he was watching me around the curve, and when I opened the book and found the money he came out laughin', and said it was to get my new things with. 'We're going to sail next week,' he said, 'just you and me,' and he laughed some more."

"But I shook my head and told him that I couldn't take money from him until after we were married. 'After we are married,' I said, 'you can give me anything.' I thought he looked queer at that, and he was leaning over me very pale, and he said: 'Kate, little Kate O'Neill, I can't marry you.' And I said, 'Why not?' and he said: 'I've got a wife. But I'll do anything for you—I'll make you happy, but I can't marry you.'"

"I had the paper-knife in my hand, and the next I knew he was lying there on the floor in the sunshine—" In the shuddering silence Moran whispered: "My God!"

"I ran upstairs with the knife in my hand and the book and the \$100. I don't see why somebody didn't find them. They're in my desk. I put them there and went on working, and when I got back to my boarding place that night I found—and that's all—"

She sank down on a step and looked up at the tall young man silhouetted against the background of blazing sunlight.

"I don't know what to do," she said, with quivering lips.

Her blue eyes held in them the appeal of helpless womanhood, and of helpless Irish womanhood at that. Moran could not stand it.

"Katie," he said, "you dreamed it."

"Oh, no," she whispered.

"You did," Moran said; "you've been sick, and you've thought about it, and it's your delirium that makes you think you did it—"

"But I'm not delirious now—" she said.

"Well, you was," Moran insisted. Then he lied smoothly. "Twas a man did it. He was handy-legged and cross-eyed and he had a grudge—" Her startled eyes questioned him.

"He?" she began.

"He?" she confessed. Moran stated obstinately, "a week ago."

With her hands in his she was sobbing: "It can't be true!"

"'Tis true."

"Oh, I don't know what to do—" Moran held her hands tightly for a moment, looking down at her with a shadow in his eyes.

"You'd best go," Moran said, hoarsely. "Go up and take the elevator on the next floor."

"You're so good."

"Gwan!" said Moran, and jerked his hat from his curly head and stood uncovered until the shadows of the stairway engulfed her.

When the two detectives reached the landing they found Moran leaning negligently against the window, looking out.

"Murphy thinks we ought to look up that O'Neill girl," Giffens said.

"Ah, gwan," Moran said, as he set his shoulders squarely. "Ye couldn't hunt a little gurgly wid eyes like blue lakes. Ye're two things before ye're hard-hearted instruments of the law—"

"An' what's that?" asked Giffens.

"Ye're men—"

"An'—"

"Ye're Oirish," finished Moran, succinctly.

A Business Proposition

Did you ever stop to think, Mr. Business Man, that the news of your business is as much a part of the local events as a wedding or a church fair? The ladies are just as much interested in a new fabric you have on the shelves as they are in any home happening. Your store news and announcements in these columns will reach a large circle of eager buyers. This will enable you to sell your goods while they are new and fresh and you will not have to sacrifice later at remnant counter prices. Think it over.

WHAT SHALL WE DO TO OBTAIN YOUR ORDER FOR

BUGGIES

We sell directly from the manufactory to you, saving all the middle man's profit, such as drummers, crating, drayage and freight expense, yet, the biggest profit of all is the dealers' profit, which we save for you.

Now to make a long talk short, we make the best buggy on the market, as described below, and sell it for even less than that so-called good buggy that the spokes went loose in the hubs, and the shaft irons broke, and the gear went all to pieces when you had had it only a short time.

The following letters are from reliable men who have used Arnold's Buggies from three to five years and have given them a thorough and severe test. We are manufacturers of buggies only. None but the best material is used and all are sold under a twelve months guarantee. Read what our customers say and let us have a trial order. You will then have no others.

Danville, Ky., January 18, 1908.—To Whom It May Concern:—I have been using R. M. Arnold's buggies in my livery for the past three years, and they have proven to be splendid buggies. I have re-ordered for 1908. We will be pleased to recommend to any one who is interested.

B. G. FOX.

Harrodsburg, Ky., January 1, 1908.—To Whom It May Concern:—We, the undersigned, have used two of R. M. Arnold's buggies this season and find them to give good service and are good buggies for the money.

VANARSDALE BROS., Liverymen.

Maud, Ky., December 27, 1907.—To Whom It May Concern:—I had R. M. Arnold make me a buggy and road wagon last spring, and they have given perfect satisfaction in every particular. I work over a very hilly country and have tried several makes of buggies in the last twenty years and prefer Arnold's to any of them.

DR. J. N. SHERMAN.

Harrodsburg, Ky., December 27, '07.—To the Public:—I am using the "R. M. Arnold Buggy" and it is giving perfect satisfaction. A trial is sufficient; you will always be a customer.

L. B. GIVENS, Liveryman.

Harrodsburg, January 3, 1908.—To Users of Buggies:—I bought of R. M. Arnold three new buggies and have run them the entire season. They have proven to be the ONLY livery buggy I ever had in my stable. I have not spent a cent on repairing them during the year. Am glad to recommend them to any one who feels interested.

A. M. TATUM, Liveryman.

Danville, Ky., December 24, 1907.—To the Public:—I take great pleasure in recommending R. M. Arnold and his buggies. I have used six of his buggies for twelve months in my livery stable and I have not spent a dollar on the entire lot. I consider the money the best livery buggy for the money I ever bought.

J. T. REID, Liveryman.

Stanford, Ky., December 15, 1908.—To the Public:—We have used and are still using buggies made by R. M. Arnold. In behalf of his work can say that it is perfectly satisfactory in every detail; as to durability, we have found no equal. We have less expenditures on his work than on all others. As to Mr. Arnold, we recommend him to the trade with utmost confidence. We will be glad to answer all inquiries with pleasure.

BEASLEY BROS., Liverymen.

Wharton & Tapp and Roblitt & Bishop, Springfield, Ky., are users of our buggies, also Brown & Peters and Crume Bros., of Lebanon, Ky. Call upon the above mentioned gentlemen and examine these buggies.

Barber, 2,000; Harry and Richard Smith, nephews, each, by codicil dated May 7, 1904, 500; residence property was given by codicil dated Feb. 2, 1903, to Kent C. Barber, to be charged \$2,000 for same on his demise; Mrs. Sallie Durdle, friend, 500.

Any balance remaining after payment of specific devisees is to be divided pro rata to John R. Barber, children and grandchildren, except that Kent C. Barber is not to share in such distribution.

Numerous items of personal property were given to various relatives and friends.

The share of devisees who have died without heirs since the making of the will pass to the other heirs.

The devisees to churches and pastors and to children, grandchildren and great-grandchildren are to be paid first and other devisees are to be paid pro rata, if funds are not sufficient to pay in full.

Testatrix states in her will that it was her purpose to pay some of these bequests in whole or in part by check during her life, and that the writing would be preserved.

All property, real estate or personal, not specifically devised, is directed to be sold by the executors who were empowered to make deeds and warrant same.

By codicils dated April 17, 1900, the devisees to St. Joseph's church for \$3,000, and \$700 in first paragraph and devisees to Mrs. Sallie Vignini, Edith, Pauline and Pierre Vignini are revoked, and by same codicil Margaret Wickliffe is devised \$300; Polly Holmes, colored servant, was given house and lot on Shepherdsville pike, provided she continued with testatrix until her death, and Nancy Barber, colored, was given house and lot in Bardstown for life with remainder to P. S. Barber, colored, and also gave \$100 additional to George Lancaster.

By codicil dated January 21, 1897, Lena Barber was substituted as devisee in place of P. S. Barber.

The original will is dated January 21, 1897, and is witnessed by W. J. Dalmazzo, John B. Waller and W. C. McChord. Several codicils were made later. W. C. McChord was named as executor and by codicil dated March 6, 1906, John Lily Barber was made joint executor.

Master Commissioner Washington Circuit Court.

How to Cure Your Piles

Due Often To Carelessness or Neglect and Stubborn to Cure

"The knife is not always necessary to cure even desperate cases of piles," says a physician whose years and experience make him an authority. "Indeed," he says further: "I have known some very aggravated cases of long standing cured by a simple home remedy that returned to the bowels easy natural daily movements."

And the doctor is right, as many letters from cured people in various parts of the country prove. If sufferers from piles, rectal tumors and ulcers would try Dr. Caldwell's Syrup Pepsin they would often save themselves the terrible pain and danger and the heavy expense of a severe surgical operation.

Piles are often due to constipation and are always aggravated by it. Easy natural movements of the bowels such as are produced by this famous laxative, without pain or griping, do much to bring about a normal, healthy condition to the bowels and thus cure piles.

M. H. Miller, Mechanicsville, Ill., says: "I have been troubled all my life with piles brought on by constipation. I tried many doctors and numerous remedies, but found no relief until I used Dr. Caldwell's Syrup Pepsin. I have used it as a laxative and stomach remedy for the past nine years and have no more troubles with piles." H. N. John, Minneapolis, Kan., writes: "I have suffered for four years with piles which were so bad that he could not work. Four bottles of Dr. Caldwell's Syrup Pepsin cured him, and he says he has not been bothered since."

Dr. Caldwell's Syrup Pepsin is a safe sure remedy for constipation restoring easy natural daily movements in the worst old chronic cases, yet so mild and pleasant to take mothers give it to their babies with splendid results. It is sold by all druggists at 50c and \$1.00 per bottle. Pepsin Syrup Co., 303 Caldwell Bldg., Monticello, Ill., will send a free sample to anyone who has not used it and will give it a fair trial.

For sale by The Red Cross Drug Store.

The Springfield Sun, \$1.00 per year.
